

## Gemma Figueras, PhD

Global Marketing Manager |  
Bridging Product Marketing,  
Science and Business

August 30, 2020, Gemma  
managed Elizabeth directly

I had the pleasure of having Elizabeth in my team during my time at Klox Technologies. She is responsible, creative, and talented, clearly an employee you want in your team. You know you can count on her and that she will get the job done. Elizabeth is also assertive and able to speak up when it is needed. She has done a tremendous job during the Covid-19 times when after being recently hired in the company, she was left as the only member in the marketing team working full time. She managed to continue doing her job as SoMe specialist, not missing any deadline while learning new tasks and functions on the spot. Everybody knew we could count on her. We were all very grateful for both, her skills and positive attitude at all times. I would recommend her without hesitation. [See less](#)
